The Professional Independent Supply Specialist

Astral Fixings is owned by Phillip Bailey, Astral Fixings was established May 2014 after Phillip worked as a sales Director for 26 years at Scalemore Ltd.

Phillip has been in the building trade for over 38 years so our knowledge base is excellent, if we cannot help you, and will be surprised if we cannot! we will certainly point you in the right direction.

We have carried over from Scalemore all my suppliers and contacts, so even though we are a small company and cannot stock everything in this brochure, my prices and quality are second to none, we pride our self on service and knowledge base.

If you use a particular product on a regular basis we are more than happy to keep stock for you, please get in touch.

Installation Instructions

- 1 Drill correct diameter hole in base material
- 2 Assemble Spring Toggle onto fixture
- 3 Fold down wings and insert into hole in base material
- 4 Tighten screw to clamp fixture to base material

TECHNICAL DATA

30-60KG

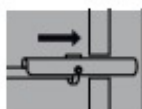

Substrate	Plasterboard 12.5mm	Plasterboard Double Board 25mm	Dense Board 15mm	Block
Rec. Tensile Load (kN) N _{rec}	0.30	0.47	0.56	0.60
Max Rec. Load (kg)	30	47	56	60

*all figures stated are approximate and for reference only.

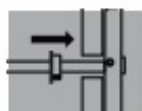

INSTALLATION GUIDELINES

Drill a 13mm hole into the substrate.
A 50mm cavity clearance required behind substrate.

Ensuring that the thumb tab faces upwards, insert the metal toggle through the hole, so that it pivots down behind the substrate.

Zip the nylon collar towards the wall so that the collar sits into the drilled hole. Then snap off the nylon arms.

Insert a M6 screw through the fixture and into the threaded part of the Zip-Fix and tighten until secure.

• Comes complete with both 40mm & 60mm pan headed screws for varying fixture thicknesses.

• Zinc plated and passivated (3 microns).

• Standard metric thread.

Please note: The nylon arms are for installation purposes only. Once removed this fixing becomes all-metal and has an improved fire resistance.

Installation Instructions

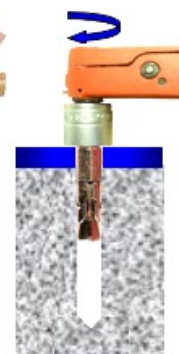

Position fixture and
drill correct diameter
hole to correct depth

Clean hole by
brushing and blowing
to remove all dust and
drilling debris

Insert assembled
anchor through fixture
into concrete

Tighten with torque
wrench to
recommended torque

The Throughbolt is the ultimate "through fixing" with the hole diameter as the bolt diameter. It is ideal for bolting in place awkward fixtures without the need for marking out, removal and repositioning. It is a torque controlled anchor suitable for use in concrete over C20/25 strength

THROUGHBOLT zinc & yellow passivated

Option 1 Cracked Concrete

ETA 13/0364
Fire Resistance

ETA 13/0364

The torque controlled Throughbolt is a zinc plated high performance anchor for use in cracked/non-cracked concrete and structural applications such as:

- Columns
- Guard rails
- Façades
- Staircases
- Silo installation
- Machines
- Cantilever beams

THROUGHBOLT Clear zinc plated - Option 1 approved

Installation Instructions

Position fixture and drill correct diameter hole to correct depth

Clean hole by brushing and blowing to remove all dust and drilling debris

Insert assembled anchor through fixture into concrete

Tighten with torque wrench to recommended torque

A throughbolt with European Technical approval

* NOT included in approval.

Product Information

A zinc plated (min 5µm), torque controlled through fixing suitable for use in non-cracked concrete range between C20/25 & C50/60.

ETA 08/0169

Option 7 Non-Cracked Concrete

*Best Seller

Product Information

A Hot Dipped Galvanised, torque controlled through fixing suitable for use in non-cracked concrete range between C20/25 & C50/60.

*Reduced loading due to shallow embedment

INSTALLATION INSTRUCTIONS

The Ankerbolt is a zinc plated self tapping anchor for use in a variety of base materials.

The undercutting action provides a positive anchorage with no expansion forces.

The wide range of types and sizes gives flexibility of choosing the correct anchor according to the fixture thickness.

BASE MATERIAL

- Concrete C20/25 to C50/60
- Non-Cracked Concrete
- Hollow Concrete Planks
- Solid Brickwork
- Concrete Block
- Natural Stone

FEATURES

- Undercutting Action
- Fast And Secure Installation
- Expansion Free
- Through Fixing
- High Performance
- Zinc Plated Minimum 5µm
- Mechanical Galvanised minimum 40µm

Also available in Stainless Steel, and Galvanised please get in touch.

Installation Instructions

Position fixture and drill correct diameter hole to correct depth

Clean hole by brushing and blowing to remove all dust and drilling debris

Insert assembled anchor through fixture into concrete

Tighten with torque wrench to recommended torque

Also available in stainless steel, please get in touch.

Sleeve Anchor

Product Information

A zinc plated, yellow passivated, torque controlled, sleeve anchor. Suitable for use in non-cracked concrete, dense concrete blocks, solid bricks and some natural stone.

Features

Through Fixing
Light to medium duty loads
Torque controlled expansion
Collapse feature to allow a positive clamping force
Supplied pre-assembled for rapid installation

Product Information

A zinc plated (min 5µm), yellow passivated, torque controlled shield anchor. Suitable for use in non-cracked concrete range between C20/25 & C50/60, solid brickwork and solid concrete blocks

Features

All steel anchor
Medium to heavy duty loads
Torque controlled expansion

Heavy Duty Anchors

Countersunk on page 18

The torque controlled Heavy Duty Anchor Hexagon Bolt is a zinc plated high performance anchor for use in cracked/non-cracked concrete and structural applications such as:

- Columns
- Guard rails
- Façades
- Staircases
- Silo installation
- Machines
- Cantilever beams

BLINDBOLT

INFORMATION

The BlindBolt is a zinc flake coated or stainless steel A4-70 blind fixing for use in a girder cavity or a box section.

The unique design helps to reduce the installation time.

The wide range of sizes gives flexibility of choosing the correct bolt according to the fixture thickness.

APPLICATIONS

- Box Sections
- Vertical Cylindrical Sections
- Hollow Profiles
- Simple Connections

FEATURES

- Design Values For BS 5950-1
- Design Values For EN 1993-1-8
- Removable
- Fast And Secure Installation
- High Performance 10.9 Property Class
- GEOMET[®] 500/Stainless Steel A4-70
- Reaction To Fire Class A1

INSTALLATION INSTRUCTIONS

INFORMATION

Polyester Resin is a two part grey resin (10:1) suitable for use in the vast majority of base materials. It can be used for installing threaded studs, rebar or internal threaded sockets for structural applications such as:

- Columns
- Guard rails
- Façades
- Staircases
- Cantilever beams

BASE MATERIAL

- Concrete C20/25 To C50/60
- Non-Cracked Concrete
- Dry/Wet/Flooded Holes
- Solid Brickwork
- Concrete Block
- Hollow Base Materials
- Natural Stone

FEATURES

- Expansion Free
- High Performance
- Close Spacing And Edge Distance

SPNOZ	Spare nozzle	-	1	£0.99	£1.19

**INFORMATION**

Pure Epoxy Resin is a two part red resin (3:1) suitable for use in the vast majority of base materials. It can be used for installing threaded studs, rebar or internal threaded sockets for structural applications such as:

- Columns
- Guard rails
- Façades
- Staircases
- Silo installation
- Machines
- Cantilever beams

BASE MATERIAL

- Concrete C20/25 To C50/60
- Cracked/Non-Cracked Concrete
- Dry/Wet/Flooded Holes
- Solid Brickwork
- Concrete Block
- Natural Stone

FEATURES

- Expansion Free
- High Performance
- Close Spacing And Edge Distance
- Can be used in Contact with Potable (Drinking) Water

**Hammer in Capsules**

The Epoxy Acrylate, Hammer In Capsules are suitable for use in solid concrete and natural stone. They can be used with reinforcing bar or threaded rods and can achieve high loads by using two capsules at double embedment depth.

**Spin in Capsules ETA Option 7**

The spin in glass capsule anchor is used with the threaded studs to provide a stress free anchorage in concrete. The quartz aggregate contained in the capsule enable the anchor to achieve exceptional loads.

Caution: Rockite and Kwixset have very strong expansion properties which generate the high tensile loads that can be achieved and as such their use in hollow bricks, blocks and some natural stone is NOT recommended.

1kg (2.2lb) dry powder weight fills approximately 700 cubic centimeters.

Installation Instructions

- 1 Drill correct diameter hole to required depth.
- 2 Clean hole by brushing and blowing to remove drilling debris and dust. Dampen sides.
- 3 Insert bolt and washer into hole ensuring washer is free to fit against head of bolt.
- 4 Mix sufficient material to a pourable consistency and fill hole around bolt, allow to cure, position fixture, attach and tighten nut.

Repairing and Patching

- 1 Clean out the area to be repaired removing all loose material and dust. Edges should be at least 12mm thick. Do not leave feather edges.
- 2 Dampen area but do not allow accumulation of water.
- 3 Mix up a small quantity of Rockite and scrub into surfaces to ensure bond.
- 4 Mix Rockite to pourable consistency for floors & plastic consistency for walls. Apply to area to be repaired.
- 5 After approx 10 minutes smooth with trowel & after 30 minutes sprinkle with water.
- 6 After 1 hour normal floor traffic may be resumed.

Compressive Strength (N/mm²)

ROCKITE and KWIXSET

Cure Times

1 Hour	24 Hours	7 Days
32	34	55

Rockite and Kwixset set in 20 to 30 minutes at 20°C and can be loaded after 1 hour

Recommended Mix Ratio 50lbs of Rockite/Kwixset to 1.5 gals water

Minimum installation temperature +5°C

Rockite is a gypsum based product which just requires the addition of water to form a versatile compound suitable for patching concrete, leveling base plates and grouting in bolts and posts. Its expansion properties provide a crack free finish and secure anchorage. **Rockite** can be used indoors without the need for any further treatment.

Kwixset is a cement and gypsum based product and can be used indoors or outdoors and requires no further treatment or protection. However it must be finished flush with the surface so that standing water cannot accumulate on the **Kwixset**.

A minimum distance of 100mm from the edge of the hole to the edge of the concrete must be maintained.

Rockite and **Kwixset** are expanding, fast setting, hydraulic type products. When mixed with water they provide a compound which can be used for grouting, anchoring or patching.

Kwixset is suitable for external use and requires no further treatment.

ACTIVE HANDS LUXURY SOAP

A pearlescent hand cleaner, suitable for all general purpose cleaning and washroom use. The premium water blended formula gently removes dirt, grime and kills germs while leaving hands and skin smelling fresh and clean. Ideal for homes, washrooms, kitchens, industry, garages, workshops and more.

ALCOHOL HAND SANITISER

An alcohol based hand sanitiser and cleaning gel which rapidly kills germs, bacteria and viruses. It dries quickly on skin with anti-bacterial properties to protect and stop the spread of E-coli, Salmonella, Tuberculosis, Herpes, Hepatitis B, HIV, Influenza, SARS, Rhinoviruses, Coronaviruses and more. Contains 62% premium grade alcohol which conforms to BS EN standards. Ideal for washrooms, offices, kitchens, industrial and more.

A multi-purpose alcohol free sanitiser, moisturiser and barrier cream for use in the work place. In wet, cold, dirty and hard wearing environments, the moisturising formula will protect skin from cracking and damage, leaving it feeling soft and refreshed, whilst killing germs and stopping the spread of bacteria for up to 2 hours. Ideal for hard working environments such as landscaping, engineering, tool rooms, plumbing and more.

A hospital grade, water based hand cleaner with anti-bacterial and anti-microbial properties. Quickly kills viruses, germs and bacteria such as MRSA, C-difficile, E-coli, Salmonella and Listeria. The foaming agents help during use to lift contaminants and leave the hands feeling fresh and clean. Ideal for washrooms, toilets, bathrooms, kitchens and more.

Extra Heavy Duty Hand Cleaner - Citrus

TIMCO Extra Heavy Duty Hand Cleaner is formulated to remove the most stubborn oils, greases, paints, diesel, adhesive residue and general dirt and grime. Contains natural orange oil, pumice and moisturisers. Ideal for workshops, construction sites, agriculture, engineers, plumbers, landscapers and more.

- Removes: Heavy Oils, Greases, Diesel, Adhesive residue, Dirt etc...
- Superior cleaning performance
- Pumice scrub
- Contains moisturisers to leave the hand feeling fresh and clean
- Orange citrus fragrance
- 100% Solvent free

Fire Stop Sealant

Description - A one part, halogen free, polymer emulsion based sealant that swells when subject to temperatures in excess of +125°C and forms a char coat that restricts the passage of smoke and fire. It is easily applied and dries to a flexible and smooth surfaced material which is readily paintable. It has excellent adhesion to a wide range of substrates and will not harden or crack with age.

USES - Typical applications include; sealing joints around internal partitions, joints between fire rated doors and fire rated walls, ductwork and service penetrations, sealing fire protection boards, lap joints in fire rated cladding. It is recommended that a sealant depth off at 15mm is applied. If the sealant is to be overpainted, building regulations may require a fire resistant coating.

Application Instructions - The correct application is essential to achieving the level of fire retardancy and acoustic levels obtained during the tests. Surfaces to which the intumescent mastic and acoustic sealant is to adhere must be clean and free from dust and loose material, standing water and other contaminates which might otherwise impair the bond. Non-porous surfaces such as aluminium should be cleaned with a suitable product to remove any oil, grease or dirt film. Highly porous surfaces should be sealed with a suitable primer. Apply masking tape to either side of joint and gun sealant firmly into joint, smoothing off with a wet spatula. Masking tape should be removed within 10 minutes of application.

Limitations - Intumescent and acoustic sealants generally should not be used in situations where abrasion from pedestrians or traffic may be encountered, or for submerged joints in porous substrates, which may permit water to reach the bond interface. Always check to determine suitability of the sealant on surface that may give cause for concern. Not suitable in joints where movement exceeds + & - 15% of joint width or in external joints.

FIRMAHOLD CLIPPED HEAD NAILS

Suitable for use in 34° cordless and pneumatic clipped head first fix nailers.

Features:

- Diamond Point for maximum penetration.
- Clipped head to increase the number of nails per strip and therefore reduce tool loading times.
- High quality paper to increase performance and reduce risk of nail jam.

Shank Design:

Plain Shank: Low penetration resistance into all materials.

Part Ring Shank: Partially ringed shank to provide low penetration resistance and improved pull-out resistance.

Ring Shank: Provides a secure fixing with high pull-out resistance.

Coatings, Materials and Service Class:

Bright (BR): Suitable for indoor applications. Conforms to euro code 5 and service class 1.

FirmaGalv (FG): Electro galvanised plating, suitable for indoor applications. Conforms to euro code 5 and service class 1.

FirmaGalv Plus (PL): Electro galvanised plating with 12 microns of zinc (Min), suitable for indoor, and covered outdoor applications. Conforms to euro code 5 and service class 2.

Hot Dipped Galvanised (HDGV): Suitable for indoor and outdoor applications. Conforms to euro code 5 and service class 3.

Stainless Steel (SS): A2 for external applications. Conforms to euro code 5 and service class 3.

Stainless steel must be used where there is a corrosive environment and/or where the base material has inherent corrosive characteristics, e.g. green oak or cedar.

Using the most modern manufacturing methods and design techniques, the C2 is a revolutionary high performance multi-purpose screw. Designed to give ultimate performance in a multitude of materials, the patented twin-cut point gives a consistent and rapid pick-up and reduces timber splitting. These unique features coupled with a synthetic lubrication and dual angle thread results in 52% less insertion torque and 43% quicker insertion time. NOTE: Partially threaded from 80mm

VS IMPACT DRIVER BITS Qty: 5 TIMco Code: 2C020V5		

C2 Head
The C2 Head has a deep recess to prevent "CAM-OUT".

Classic Thread
The Classic thread ensures a secure fixing.

Twin Cut Point
Patented twin cut technology for rapid "pick-up" and reduced splitting.

The Solo Decking Screw is an economic softwood decking screw, that combines high clamping results with rapid installation.

60SOLOD1000	Organic Green	4.5 x 60	No.2	1,000	£24.43	£29.32

The innovative design of the C2 Timber Decking Screw, rapidly penetrates the timber, cleanly countersinking and clamping the board to the joist

Tim Drive Recess
The Tim Drive has an impact resistant head with ribs underneath for improved countersinking.

Helix & Thread
The Helix removes debris and a 40° deep single thread provides a secure fixing with high pull-out resistance.

Twin Cut
Twin Cut for rapid "pick-up" and reduced splitting.

A traditional heavy duty woodscrew mainly used for timber to timber applications, attaching ironmongery to timber or for use with a nylon plug into masonry.

Prices are correct at time of print, BUT check current price before purchase as we cannot guarantee prices. We reserve the right to refuse sale or honour prices without notice or explanation, ALL prices are subject to VAT at the current rate unless stated. As we use several suppliers images, descriptions & data are for guidance only and may differ to the ones supplied. For full technical details please get in touch. See our T & C's

A versatile heavy duty screw with a hex flange head and is the modern replacement for traditional DIN 571 Coach Screws. Benefits from an aggressive slash point tip for easy driving and reduced splitting.

Suitable for softwood, hardwood or masonry with a nylon plug.

A versatile heavy duty coach screw 3x faster than a standard coach screw.

In-Dex External Coach Screws

TIMco IN-Dex exterior coach screws are designed for roofing and landscaping. They have an olive green plating to withstand up to 500 hours (min) salt spray and have an added patented molecular lubrication to increase insertion speed. A pilot hole maybe required when being used with certain hardwoods.

A general purpose mixer with a twin propeller design to reduce splashing and blend materials with ease, whilst the protective rim prevents container damage. The hard wearing coating allows for easy cleaning. Suitable for use with paint, varnish, glaze, floor screed and more. Compatible with all drills with a three jaw chuck, including combi-drills.

- Fast mixing
- Easy clean coating
- Multi-purpose hex shank
- Reduced splashing
- Easy material blending

Paint Mixer

Size mm	Shank	Code	Price per	Price Ex-Vat	Price Inc Vat
80 x 400	9mm Hex	673147	1	£4.26	£5.11
100 x 600	10mm Hex	673258	1	£4.75	£5.70

A high quality mixing paddle with helical fin design to allow for rapid and effortless mixing of a variety of viscous building compounds. With a protective rim to prevent container damage and zinc plating for easy cleaning. Suitable for use with tile adhesive, ready mixed plaster, floor screed, filler, cement compounds and more. Compatible with all drills with a three jaw chuck, including combi-drills.

- Rapid & effortless mixing
- Heavy duty construction
- Easy clean coating
- Multi-purpose hex shank
- Protective rim
- Smooth & thorough mixing

A premium grade high strength, instant adhesive for internal and external applications.

Ideal for humid and damp environments such as kitchens and bathrooms.

A premium grade high strength rubber based contact adhesive suitable for internal and external applications. The easily spreadable liquid formulation allows for an even and uniform bond on large surfaces such as flat roofs, laminate sheets and flooring applications

Ideal for humid and damp environments such as kitchen and bathrooms.

Please note for the strongest possible fixing, apply to both surfaces

Key Features:

Toluene free

The low odour formula has been developed to bond a wide variety of substrates

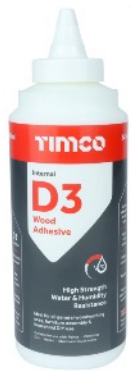

Suitable for plastic, PVCu, rubber, ceramic, metal, glass, wood, MDF, paper, card, fabric, formica, stone, crystal, concrete, cork, linoleum, leather & porcelain. Forms an extremely strong instant bond once the two surfaces have been joined

Heat resistant to +80 degrees Celsius

Includes grooved spreader for controlled and even adhesive application

Extra Large 50g size

A fast setting (approx 90 secs) medium to high strength all purpose adhesive. Suitable for use on non-porous surfaces such as plastics, PVCu, metal, wood, MDF, leather, rubber, ceramics and much more. Key Features: High viscosity formulation is ideal for vertical and horizontal application Can be used for small gap filling For accelerated setting time (10 secs) use TIMco Mitre Bond Activator

Used for creating an instant bond when fixing with a cyanoacrylate adhesive. Formulated for use with TIMco Mitre superglue in forming a high strength bond. Key Features: Dramatically reduces assembly time during manufacturing and fitting of furniture, kitchens and PVCu components. Can also be used to accelerate the curing process of other cyanoacrylate adhesives

247321	200ml / 50g	12	1	£3.08	£3.70

A two part adhesive system comprising of a cyanoacrylate adhesive and aerosol activator. The high viscosity glue formulation is ideal for vertical and horizontal applications on non-porous surfaces such as plastics, PVCu, metal, wood, MDF, leather, rubber, ceramics and much more. Key Features: When a rapid bond is required the activator will set the adhesive in seconds. Due to the rapid bonding time this system significantly reduces mitre assembly Heat resistant from -55 to +80 degrees celsius

A totally unique "hybrid" sealant for use in areas requiring a tough elastic rubber joint or as an adhesive with superior bonding strength.

- *For interior and exterior applications in all weather conditions.
- *Remains permanently flexible.
- *Can be over-painted with water-based paints.
- *Non staining and will not discolour surfaces (excellent for use on natural stone).
- *Contains no isocyanates, solvents, silicone and phthalates.
- *Excellent adhesion to most surfaces (even moist surfaces). Wet on wet application.
- *No odour.
- *Anti-pick properties (colours only).
- *CE Approved: Conforms to EN15651-1; F INT.

Note: This product is not recommended for use with expansion joints or for installations where the joints are continually immersed in water. If allowed to cure in dark conditions or low UV light the product may yellow.

A universal, waterproof, construction adhesive and sealer for use with stone, concrete, mirrors (with an acetone resistant backing *please see TDS for limitations), natural stone, marble, gypsum board, poly-carbonates, polystyrene, PVC, many plastics, ceramics, copper, lead, zinc, aluminium, stainless steel, wood and glass.

A premium grade polyurethane wood adhesive that will bond hard, soft, exotic and painted wood. This rapid curing foaming adhesive expands into materials to form an incredibly strong bond. Due to the multi-purpose properties, this industrial strength adhesive can also be used to adhere a wide variety of building materials such as metal, various plastics (including PVC), polystyrene, stone, brick & masonry. Superior curing time compared to traditional PVA based wood adhesives.

- Once set it is 100% water resistant to EN 204 D4
- *Has excellent chemical resistance
- *Foams during curing to fill gaps and increased adhesion performance
- *Temperature resistant from -30°C to +150°C

TIMCO acetoxy silicone is a general purpose, single component silicone which offers a flexible watertight seal to most surfaces. For sealing around different types of doors and window frames, kitchen units, pipes, sanitary fixtures and duct work. Can also be used for draught proofing.

- Versatile sealant
- Good elasticity
- Resistant to UV, water and weather

A premium, single component, ready to use, neutral cure silicone sealant. It is low odour and moisture curing.

*Our best selling Trade Silicone Sealant

Movement Accommodation 25% A high grade LMN silicone for perimeter sealing of external door and window frames. Rapid curing with good adhesion properties and additional uPVC adhesion promoters.

For perimeter sealing of external wood, aluminium and uPVC door and window frames and for weather sealing and flexible jointing of infill panels. Can also be used on concrete, plaster and mortar. Note: Not suitable for use with aquaria or for use on bitumen or asphalt. This product cannot be over-painted. Risk of yellowing in low UV light situations (e.g. if used indoors) whilst curing. Note: Sealant may crack if exposed to movement before it is suitably cured, therefore joints should be protected from movement for at least 3 hours after application

WP70 comes in 9 colours: white, brown, trans, buff, grey, black, rosewood, anthracite grey and toffee. White and Translucent boxed in 25's, colours boxed in 12's

A low modulus neutral cure (LMN) silicone for perimeter sealing of external door and window frames. Rapid curing with good adhesion properties and additional uPVC adhesion promoters and extended open time for ease of tooling.

For perimeter sealing of external wood, aluminium and uPVC door and window frames and for weather sealing and flexible jointing of infill panels. Can also be used on concrete, plaster and mortar. Note: Not suitable for use with aquaria or for use on bitumen or asphalt. This product cannot be over-painted. Risk of yellowing in low UV light situations (e.g. if used indoors) whilst curing. Note: Sealant may crack if exposed to movement before it is suitably cured, therefore joints should be protected from movement for at least 3 hours after application.

While WP70 is suitable for sealing windows and doors in most circumstances its flexibility range is 12.5% and as such joints where more extreme movement is expected may be better sealed using the Bond it WP100 premium silicone offering 25% flexibility.

A superior anti-mould silicone sealant guaranteed to prevent mould, mildew and bacterial growth for up to **10 years**. Remains permanently waterproof making it suitable for sealing applications in areas of high humidity such as kitchens, shower bases and cubicles, baths, wet rooms, sanitary ware, etc. Can also be used around window and door frames in areas that have condensation levels

One part silicone sealant with excellent primerless Can be used in swimming pool areas (but not in swimming pools). Ideal for sanitary applications including connection and expansion joints in bath rooms, kitchens, toilet areas and swimming pool areas. Stays mould-free for 10 years and protects against discolouration. Contains powerful anti-fungal biocide that retards mould growth.

A quick drying, interior decorators caulk that remains permanently flexible and can be smoothed and over-painted within 1-2 hours of application. Has good adhesion to most building materials including wood, plaster, brick, concrete and plasterboard

Suitable for sealing and filling cracks in most "alike" materials, such as skirting boards, plastics and polystyrene coving. Note: Not recommended for external use or in wet areas

FOAM: A high quality polyurethane based expanding foam designed to give excellent thermal and acoustic characteristics. Expands up to 30 times its original volume, quick to dry and can be sawn, sanded and painted once fully cured. Ideal for filling and insulating irregular or awkward gaps where the foam can expand and fill the cavity to prevent heat loss and deaden sound. Can also be used as a temporary fix prior to mechanical anchors being installed to window and door frames. Excellent thermal & acoustic insulation Up to 30 x expansion Fast curing - 2 hours

CLEANER: Designed to rapidly dissolve, remove and clean uncured PU foam from surfaces and for cleaning PU foam applicator guns. Complete with dual fitting nozzle for connecting to guns for cleaning or for direct spraying onto surfaces. Key Features: Solvent based Leaves work surfaces clean

For B2 foams to achieve a fire rating approval they MUST be used in conjunction with a fire rated sealant, Page 25. JCP Gun Grade and Hand Held B2 Foam with CFC free propellant is a one component, self-expanding, ready to use polyurethane foam. It contains CFC free propellants which are completely harmless to the ozone layer. It has a firing rating to B2 (DIN 4102-Part 2) and has been tested and approved for sound proofing by "ift Rosenheim" .

PU Foam Applicator Gun

Code	Type	Qty Bought	Price per	Price Ex-Vat	Price Inc Vat
783556	Trade	1	1	£11.04	£13.25

783556

An economic professional PU foam applicator gun for use with standard 750ml and 500ml gun grade canisters. Manufactured using high quality components for a professional finish and long lasting performance. Pack also includes two extension tubes for a longer reach or to fill hard to reach spaces and two tapered nozzles for small gaps.

78113

A premium quality professional PU foam applicator gun for use with standard 750ml & 500ml gun grade canisters. The ergonomic lightweight aluminium design makes it quick and easy to fill and seal cavities. Pack also includes two extension tubes for a longer reach or to fill hard to reach spaces and two tapered nozzles for small gaps. Key Features: Easy to clean PTFE coating Excellent flow control Lightweight Hard wearing PTFE coated internal components

Developed to penetrate, loosen, maintain, protect and clean metal surfaces. Ideal for: Drying electrical systems, stopping hinges and latches from squeaking, maintaining locking mechanisms, reducing tool wear and tear, priming ignition systems, loosening seized nuts and bolts and much more

Multi-Purpose Lubricant

Roatabroach cutters next page
Rotabroach new name 'OSL cutters'

Manufactured from a high grade M2 tool steel for drilling heavy gauge non-alloy materials with a magnetic drill. Long reach cutter cutting depth 50mm, short reach 30mm. Provided pilot pin must be used to prevent drifting.

BCP501250	Long pin for 50mm length cutters		1	£3.72	£4.46

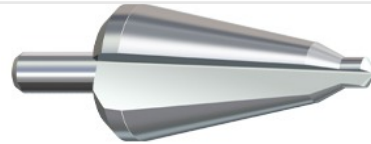

These engineering quality countersinks drill a precise recess to allow a fastener head to sit flush in alloy and non-alloy metals, timber and man-made boards.

- 90° head angle
- High quality M2 grade High Speed Steel (HSS)
- 3 flat shank to prevent slipping in the chuck

3 Flute Countersink

Code	Diameter mm	To fit screw mm	Price per	Price Ex-Vat	Price Inc Vat

*Manufactured from M2AL material. Heat treated to a higher temperature, ensuring a greater hardness of cutter

*Our M2AL Raptor cutters have been designed to ensure that they will last longer, cut faster and give a better and more accurate finished hole than any other annular cutter.

- Rotabroach M2AL Raptor cutters have a unique and exclusive geometry that you will only find on genuine Rotabroach cutters.

Please note: a next day delivery charge applies at £8.50 + vat per order, Not per item.

Suitable for use with a drill driver when cleaning metal masonry and wood surfaces. The twist brush is ideal for aggressive removal of paint, rust, rubber, concrete or dirt

Twist Knot Steel Wire Wheel Brush

Code	Description	Price Ex-Vat	Price Inc Vat
75SWT	75mm - 1/4" shaft	£5.36	£6.43

Suitable for use with angle grinders. The crimped stainless steel wire is ideal for lightly removing loose paint, rust or dirt without scarring or contaminating the base material.

Crimped Stainless Steel Wire Cup Brush

Code	Description	Price Ex-Vat	Price Inc Vat
100TCCSS	100mm	£11.28	£13.54
75TCCSS	75mm	£9.30	£11.16

For cleaning embedded filings from both wood and metal files

File Cleaning Brush

Code	Description	Price Ex-Vat	Price Inc Vat
FCB	110mm x 40mm	£3.16	£3.79

Suitable for use with angle grinders. The 0.5mm left hand twist wire is hard wearing and gives an aggressive removal of paint, rust, rubber, concrete or dirt whilst maintaining its shape. The stainless steel reduces contamination of the base material. The metal ring around the base of the cup reduces the likelihood of centrifugal-splay and can also be removed to increase usage life

Twisted Knot Stainless Steel Wire Cup Brush

Code	Description	Price Ex-Vat	Price Inc Vat
100TCTSS	100mm	£20.92	£25.10

Suitable for use with angle grinders (M14) when cleaning and polishing metal surfaces. The crimped wire is ideal for lightly removing loose paint, rust or dirt without scarring the base material.

Crimped Steel Wire Bevel Brush

Code	Description	Price Ex-Vat	Price Inc Vat
115TBC	115mm	£5.86	£7.03

Suitable for use with angle grinders. The crimped stainless steel wire is ideal for lightly removing loose paint, rust or dirt without scarring or contaminating the base material

Crimped Stainless Steel Wire Bevel Brush - M14

Code	Description	Price Ex-Vat	Price Inc Vat
115TBCSS	115mm	£9.42	£11.30

Suitable for use with angle grinders (M14) when cleaning metal, masonry and wood surfaces. The 0.5mm steel left-hand twist wire is hard wearing and gives an aggressive removal of paint, rust, rubber, concrete or dirt whilst maintaining its shape and improves user control. The metal ring around the base of the cup reduces the likelihood of centrifugal-splay and can also be removed to increase usage life

Twisted Knot Steel Wire Brush

Code	Description	Price Ex-Vat	Price Inc Vat
115TWT	115mm	£7.32	£8.78

Suitable for use with angle grinders (M14). The twist brush is ideal for aggressive removal of paint, rust, rubber, concrete or dirt. Ideal for accessing awkward areas. The stainless steel reduces contamination of the base material

Twisted Knot Stainless Steel Wire Bevel Brush

Code	Description	Price Ex-Vat	Price Inc Vat
100TBTSS	100mm	£10.92	£13.10

Suitable for use with 125 mm (5in) angle grinders with a 22.2 mm (7/8in) bore with a standard flange plate. Used when cleaning metal, masonry and wood surfaces. The twist brush is ideal for aggressive removal of paint, rust, rubber, concrete or dirt. Ideal for accessing awkward areas

Twisted Knot Steel Wire Brush

Code	Description	Price Ex-Vat	Price Inc Vat
125HWT	125mm	£7.32	£8.78

Suitable for use with a bench grinder when cleaning and polishing metal surfaces. The crimped wire is ideal for lightly removing loose paint, rust or dirt without scarring the base material.

PREMIER PERFORMANCE

Four easily identifiable performance levels help you to choose the right tool for your job, material and budget.

A full product specification sheet is available to download: www.premierdiamondproducts.co.uk

Please note: PDP products will have a next day delivery charge of £8.25+vat Per Order, not per item.
Subject to stock level, please call for details.

DESCRIPTION: The P3-B offers unrivalled performance when compared to other low-cost blades. The P3-B can be used on all popular building materials and concrete products and like all Premier blades it is manufactured in-line with European safety standard EN13236

SUITABLE FOR USE ON: Standard Facing Bricks, Concrete - Beams, Kerbs, Pipes and Slabs, Concrete - Block Paving, Concrete - Flag Stones, Concrete - General Purpose, Concrete - Roof Tiles, Concrete Blocks - Medium Density 7 to 12 Newton, Cement Screed, York Stone

Special Application Blade

DESCRIPTION: The TERRASAUR is a tungsten carbide cluster saw blade that tackles jobs too tuff for a chainsaw or diamond blade. Hidden nails, screws and stones - no problem. The TERRASAUR is reversible, so if cutting speed reduces, turn the blade around and continue cutting. Unlike a diamond blade, the TERRASAUR blade cuts well when tilted and can withstand heavier pressure

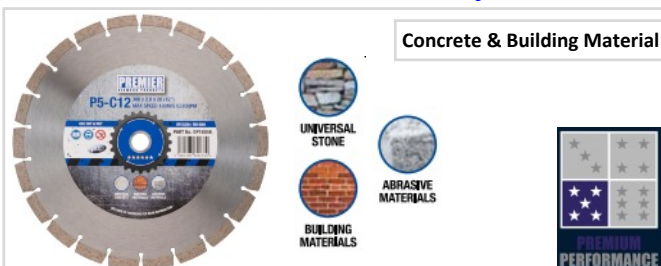

SUITABLE FOR USE ON: Groundwork - Hard Soil, Rubber, Railway Sleepers, Tree Roots, Wood.

PDP P6 - TS

DESCRIPTION: The P5-C12 has been developed with the utmost understanding of the aggregates being used in the manufacture of British concrete and building materials. The P5-C12 is durable, fast cutting and gives good life, even on harder flint concrete. N.B. The P5-C12 is the P4-C's big brother - the same quality diamonds and bond system, but with a taller 12mm segment for longer life

SUITABLE FOR USE ON: Standard Facing Bricks, Concrete - Beams, Kerbs, Pipes and Slabs, Concrete - Block Paving, Concrete - Flag Stones, Concrete - Flint Aggregate, Concrete - General Purpose, Concrete - Light Reinforced, Concrete - Roof Tiles, Concrete Blocks - Medium Density 7 to 12 Newton, Cement Screed, York Stone

DESCRIPTION: The P5-5in1 blade is renowned for its extremely fast cutting and ability to cut a wide range of materials from steel sections and Indian stone to reinforced concrete and building materials. Diameters 230, 300 & 350mm have a reinforced centre flange to increase strength when cutting harder materials, improving stability and providing straighter cuts. The 5in1 is the ideal choice for all levels of users and is equally at home on large construction sites such as it is on smaller jobs

SUITABLE FOR USE ON: Bricks - Class A Engineering, Bricks - Class B Engineering, Bricks - Standard Facing Bricks, Clay Products, Concrete - Beams, Kerbs, Pipes and Slabs, Concrete - Block Paving, Concrete - Flag Stones, Concrete - Flint Aggregate, Concrete - General Purpose, Concrete - Heavy Steel Reinforcement, Concrete - Light Steel Reinforcement, Concrete - Roof Tiles, Concrete Blocks - Medium Density 7 to 12 Newton, Concrete Blocks - Solid Density 12+ Newton, Granite - Blocks and Worktops, Limestone, Sandstone - Indian, Tiles - Slate, York Stone

DESCRIPTION: A premium laser welded dual-purpose diamond blade which is ideal for civil engineers and utility contractors and many other professionals who prefer to use just on blade for all their cutting. The versatility is possible due to a mix of three different segment designs, all with high-levels of diamond concentration and advanced bond systems to ensure they interact perfectly with one another.

SUITABLE FOR USE ON: Asphalt, Asphalt Over Concrete, Bricks - Class A Engineering, Bricks - Class B Engineering, Bricks - Standard Facing Bricks, Clay Products, Concrete - Beams, Kerbs, Pipes and Slabs, Concrete - Block Paving, Concrete - Flag Stones, Concrete - Flint Aggregate, Concrete - General Purpose, Concrete - Green (up to 24 hours old), Concrete - Heavy Steel Reinforcement, Concrete - Light Steel Reinforcement, Concrete - Roof Tiles, Concrete Blocks - Lightweight 3 to 7 Newton, Concrete Blocks - Medium Density 7 to 12 Newton, Concrete Blocks - Solid Density 12+ Newton, Cement Screed, Sandstone - Abrasive, York Stone

DESCRIPTION: The main priority of the P6-LMCA LASERMAX is to give exceptional productivity and a low cost per cut in concrete and asphalt. It can be used on the hardest of concrete through to building materials and asphalt without compromising cutting speed or blade life. Extremely high diamond concentration helps to ensure long life while deep draft segments protect the steel core when cutting deeper in asphalt and abrasive materials

SUITABLE FOR USE ON: Asphalt, Asphalt Over Concrete, Bricks - Class A Engineering, Bricks - Class B Engineering, Bricks - Standard Facing Bricks, Clay Products, Concrete - Beams, Kerbs, Pipes and Slabs, Concrete - Block Paving, Concrete - Flag Stones, Concrete - Flint Aggregate, Concrete - General Purpose, Concrete - Green (up to 24 hours old), Concrete - Heavy Steel Reinforcement, Concrete - Light Steel Reinforcement, Concrete - Roof Tiles, Concrete Blocks - Lightweight 3 to 7 Newton, Concrete Blocks - Medium Density 7 to 12 Newton, Concrete Blocks - Solid Density 12+ Newton, Cement Screed, Sandstone - Abrasive, York Stone

EVOCUT 6-star High Performance Blade

DESCRIPTION: The P6-ECC EVOCUT is a professional laser welded blade designed to cut very hard reinforced concrete FAST. The 15mm arrow style turbo segments are made using top quality titanium coated diamonds for increased durability and an innovative pre-alloyed metal powder bond mix developed to hold and support the diamonds for maximum productivity. Combining these materials with arrow designed gullets and cooling holes helps to ensure incredibly fast cutting, long life and lower vibration. The P6-ECC EVOCUT blade offers everything you would expect from a professional blade, but overall performance is elevated to a totally new level.

SUITABLE FOR USE ON: Bricks - Class A Engineering, Bricks - Class B Engineering, Bricks - Standard Facing Bricks, Clay Products, Concrete - Beams, Kerbs, Pipes and Slabs, Concrete - Block Paving, Concrete - Flag Stones, Concrete - Flint Aggregate, Concrete - General Purpose, Concrete - Heavy Steel Reinforcement, Concrete - Light Steel Reinforcement, Concrete - Roof Tiles, Concrete Blocks - Medium Density 7 to 12 Newton, Concrete Blocks - Solid Density 12+ Newton, Granite - Blocks and Worktops, Sandstone - Indian, York Stone

Asphalt & Abrasive Material Blade

ASPHALT

ABRASIVE MATERIALS

ENTRY PERFORMANCE

DESCRIPTION: The P3-A asphalt blade strikes a good balance between cost and performance. PDP's field testing team were surprised this was an entry level priced blade! Drop segments on all sizes ensures protection against undercutting when sawing through asphalt and abrasive materials

SUITABLE FOR USE ON: Asphalt, Concrete - Green (up to 24 hours old), Concrete - Roof Tiles, Concrete Blocks - Lightweight 3 to 7 Newton, Concrete Blocks - Medium Density 7 to 12 Newton, Cement Screed, Gritstone, Sandstone - Abrasive

Asphalt & Abrasive Material Blade

PREMIER PERFORMANCE

DESCRIPTION: The P5-LMA LASERMAX is a versatile premium asphalt blade with 10mm high laser welded segments. A higher concentration of diamonds in each segment means the P5-LMA is ideally suited to the largest of jobs where performance and life expectancy far outweigh the initial cost - this leads to the lowest cost per metre cut. Deep draft segments on diameters 300mm and over ensures protection against undercutting. Diameters 115-230mm are ideal for chasing lightweight blocks

SUITABLE FOR USE ON: Asphalt, Concrete - Green (up to 24 hours old), Concrete - Roof Tiles, Concrete Blocks - Lightweight 3 to 7 Newton, Concrete Blocks - Medium Density 7 to 12 Newton, Cement Screed, Gritstone, Sandstone - Abrasive

Ferrous Steel
Non-ferrous
Plastic Pipe
Wood
Cement Fibre Board

DESCRIPTION: The P5-VB 'rescue' diamond blade benefits from fully exposed diamonds that are vacuum brazed directly to the cutting edge. Vacuum brazing is a material joining process which offers significant advantages in terms of cleanliness, joint strength and integrity making the P5-VB ideal for cutting non-construction materials, such as composite worktops and steel sections.

SUITABLE FOR USE ON: Aluminium, Cement Fibre Board, Cast Iron, Composite Cladding and Panels, Earthstone Worktops, Fibreglass, Glass Reinforced Plastic (GRP), PE Polyethylene Plastic, PP Polypropylene Plastic, Quartz Worktops, Rubber, Steel Sections - Pipes and Beams

Mortar Rake Blade

DESCRIPTION: In addition to a higher than normal diamond concentration, Premier Diamonds premium mortar raking blade incorporates tungsten carbide wear inserts welded inside three of the gullets; this extra feature prevents the steel core wear to quickly, ensuring maximum segment life and the lowest cost per cut possible. Use in conjunction with the DP16371 EVORAKE bit for perfect results

Workplace First Aid Kits

First Aid

BS - Workplace First Aid Kits

BS8599-1 is the first new standard for statutory First Aid Kits in the workplace since 1997. These kits reflect the changes in both workplace practice and risks, making them demonstrably more 'fit for purpose' in today's environment, when compared to the old HSE kits. Durable and stylish polypropylene case. Wall mountable with integrated bracket.

Low Risk Workplace Environment - Small Kit: Less than 25 people. **Medium Kit**: 25-100 people. **Large Kit**: 1 kit per 100 people.

High Risk Workplace Environment - Small Kit: Less than 5 people. **Medium Kit**: 2-25 people. **Large Kit**: 1 kit per 25 people.

HSE - Workplace First Aid Kits

HSE First Aid Kit in Integral Aura box. Durable polypropylene box with green safety clips, integrated carry handle, and a secure airtight lid provides protection from dust and water. Content based on 1997 Approved Code of Practice.

The Faithfull Rechargeable Work Light is fitted with an energy efficient and incredibly robust LED producing 800 lumens of light output. Its compact size and heavy-duty metal case is drop resistant up to 2m, making this unit ideal for tough working environments. Fitted with a folding handle for easy, space saving storage. The internal lithium-ion 3.7V 4400mAh battery will power the light for up to 6 hours. It may also be used as a power bank, permitting the charging of most small electronic devices such as mobile phones, MP3 players or tablets supplied with USB charging leads, which can be connected to the lamp's USB output port. Supplied with a detachable magnetic stand, a 240V mains charger and 12V car charger.

A precision-tooled durable aluminium body, fitted with a powerful 3W Cree LED this compact torch features three light settings, high power, low power and flashing and illuminates with a bright white light. The beam is adjustable as the front of the torch extends so can be changed from wide-angle flood light and long distance illumination. Don't be fooled by the compactness of this item, which can easily slip into your pocket, it might be pocket sized but it packs a powerful punch.
